

MentorGraph

Academic Consultation & Mentorship Management System

System Overview

MentorGraph is a database-driven platform designed to facilitate structured academic consultation between **students, student tutors (ST), and faculty members**. The system enables students to discover mentors based on **topic expertise, availability, and peer feedback**, and schedule consultation sessions efficiently.

The platform integrates **consultation scheduling, expertise discovery, and reputation tracking** into a unified system.

Administrative Module

- **User Administration**
 - Manage student, tutor, and faculty accounts
- **Subject & Topic Configuration**
 - Add/Edit/Remove academic subjects and topics
- **Session Monitoring**
 - Track scheduled consultations and system activity
- **Review Moderation**
 - Manage user reviews and ratings
- **System Notifications**
 - Send announcements and consultation alerts

Student Module

- **Authentication**
 - User Sign Up
 - Secure Login
- **Profile Management**
 - Update personal and academic information
- **Consultation Booking Interface**
 - Select subject/topic
 - Choose tutor or faculty
 - Book available consultation slot
- **Consultation History**
 - View previous sessions and feedback
- **Mentor Discovery**
 - Browse tutors by topic expertise
 - View mentor ratings and student reviews

Tutor / Faculty Module

- **Authentication**
 - Secure Login
- **Profile Management**
 - Define expertise subjects/topics
- **Availability Management**
 - Configure consultation schedules
- **Consultation Management**
 - Accept or manage session bookings
- **Student Evaluation**
 - Provide optional feedback on student performance

Consultation Management System

- **Consultation Request Creation**

- Subject/topic selection
- Mentor selection
- Time slot booking

- **Notification Engine**

- Notify tutors or faculty upon booking

- **Session Tracking**

- Track upcoming and completed consultations

Reputation & Ranking System

- **Student Review System**
 - Post-session ratings and feedback
- **Topic Expertise Ranking**
 - Rank mentors based on topic-specific feedback
- **Consultation Insights**
 - Identify highly effective mentors for specific subjects
